**Don't Know Where to Start? I'll Personally Get on
the Phone With You and Help You Set Realistic Goals
and Craft a Tailored "Lifestyle-Friendly" Plan for
Shedding Your Unwanted Pounds**

If you're looking to lose weight, I'm here to help you get life changing results.

Don't believe me? Let me prove it to you.

I'll spend **60 minutes** of my own free time to craft a personalized health plan just for you - one that fits your specific fitness goals and more importantly, **doesn't shatter your lifestyle**.

Am I crazy? Maybe...especially when you see what I'm charging for this.

\$20.

That's less than half the cost of your typical gym membership...you know, that fortress of solitude you're always secretly avoiding by making up the same ol' excuses...

"I'm sooo tired from work..."

or

"It's ok...I'm just going to go tomorrow instead".

Sound familiar?

Don't beat yourself up over it.....

It's NOT your fault....life simply gets in the way.

Work, family, friends and all sorts of other adult responsibilities.

Plus, you're probably sick of trying other weight loss programs or "miracle" diets...

.....only to find the pounds keep coming back.....

every...single....time.

Now, I'm no fitness "guru" or anything like that....but I do know a thing or two about helping people just like you achieve their desired weight.

I've managed to do it **every time.**

My secret weapon?

Herbalife.

Forget everything else you've been told (and probably lied to) by the sea of "magic" pill solutions out there...

...this is the **only solution I've found** that actually helps you **lose AND keep unwanted weight off** for the rest of your life.

Not only that, but it actually helps you lead a healthy, active life with yummy protein shakes, snacks, and drinks and a lot more (we've even got skin and hair care products!).

If you can't tell by now....

I'm a true believer in Herbalife and the reason is simple...

I've achieved amazing, breakthrough fitness results for both my clients and myself....time and time again.

In fact, let me go ahead and share a few success stories with you:

Kim Frahm

"I started seeing 'saddle bags' on my thighs," Kim Frahm recalls. "My size-14 clothes were getting tight. Even my dad was calling me his 'fluffy daughter.'" So Kim decided to take action. "When I saw my dad totally change his body using the Herbalife® weight management products," she says, "I agreed to give the program a try."

"I'm still pinching myself about how much weight I've lost!"
"After my first shake," Kim says, "I was surprised at how full and satisfied I felt. And after my third day on the program, I actually had the energy—finally—to play with my boys!" Soon Kim's clothes began to fit less snugly, and she went on to go from a size 14+ to a size 4-6. "No more cravings, no more exhaustion—and no more saddle bags!" Kim exclaims. "I still can't believe how much these products have improved my life!"

Eli A

*"With my weight over 200 pounds, my wife was really worried about me." But the energy boost he felt on the program was so strong, Eli participated in a marathon a few months later. "Because of a knee injury, I only made it 18 miles," Eli says. "But considering the shape I was in before, what a great success that was!" Eli went on to drop 44 pounds, add 10 pounds of muscle and slim his waist from a size 38 to 31. "I'm training again for this year's marathon!" Eli exclaims.**

Hopefully by now you can see the incredible results that Herbalife can deliver.....

.....now, let's take a look at why you should absolutely *jump* on this **limited time offer** for 60 minute 1-on-1 coaching session with me.

Here's what you're going to get out of the session:

- Identify and develop your **personal health goals** (your situation is unique and we'll figure out what makes sense for *you*)
- Craft a **detailed health plan** to achieve your personal health goals (this includes everything from your diet to your exercise regimen)
- Switch into a **powerful "results-oriented"** mindset – an often overlooked but critical piece of the puzzle

Sounds great, right? And you get all that for just \$20.

However, there's a catch I need to **warn you about.**

This is not some gimmicky "miracle" cure that's going to help you lose weight while you continue to stuff your face with nasty junk food and laze around on the couch...

You're going to need to work for this. And work hard.

But the good news is – this is *exactly* the reason why my clients are able to keep their weight off...they don't depend on dangerous, unknown chemicals or mountains of pills.....

...they develop a realistic plan that works for them, one that they can actually ***stick with***, and simply *work it*.

You see, I'm not just going to help you reach your weight loss goals...

I'm actually going to help you live a **healthy lifestyle**.

One that delivers benefits beyond just losing a few pounds...such as preventing medical illnesses and diseases that you may be prone to later on in life.

You see, that's the Herbalife way of doing things and I've proud to say it's worked for millions of people worldwide.

In case you haven't heard of them, here's how they're different from the other "infomercial" products out there:

- Our products are **rigorously tested** by the <http://www.bscg.org/> which is owned by the **World Anti-Doping Agency** so it is **safe and clean** for athletes (unlike other supplements which often contain *high cancerous levels* of arsenic lead and mercury)
- Our products are developed in a **\$200 million lab at UCLA** and our doctors are the **top rated** in the country
- We're the **largest nutrition company in the world** and have been in business for **33 years**
- Our products are available from over **2.5 million** independent distributors (just like myself) across more than **80 countries**
- We have a **proven track record of success** (we've helped countless people just like you reach their weight loss *and* overall health goals)

If you aren't convinced by now, I don't know what else to tell you.

How many other fitness experts are willing to spend **60 minutes** on the phone with you for only **\$20**?

I'm willing to put my time (and money) where my mouth is and really "show you the goods".

But...you have to sign up and book your time slot. *Now.*

You see, due to other clients, I only have so many free hours so I'm not sure how long I'll be able to offer this.

If you're serious about losing weight and developing a healthy lifestyle that lasts a lifetime,
